## CODE OF CONDUCT

Ethical behaviour and acting in accordance with the law protects against legal and economic risks and risks and strengthens the reputation of and trust in our company.

### **Health of our employees**

We ensure good working conditions with high standards of occupational health and safety for our employees. Each individual is trained, jointly responsible and instructed to strictly adhere to health and safety at work in their area so that accidents, incidents and operational disruptions can be avoided.

### **Respect and integrity**

We promote an environment characterized by mutual respect and do not tolerate any discriminatory behavior. We strictly reject any form of child and forced labor or other methods that attempt to coerce work performance and are not based on free will. For us, integrity is the essential foundation for sustainable business success.

### **Sustainability, environmental awareness**

The conservation of resources and energy efficiency is important to us. Our focus is on optimizing production processes to reduce environmental impact while maintaining our quality standards. We are committed to implementing environmentally relevant measures within the scope of our business activities, thus making a significant contribution to sustainable environmental protection.

### **Legally compliant behavior**

Our decisions are guided by moral and ethical principles. We comply with human rights, existing laws and official regulations. It goes without saying that we protect the personal rights of our employees and business partners and ensure that personal data is only used within the legally authorised framework.
